and Engraved Metal*

Now Available

All this and much more now available - please ask us for more details.

When should we book our Photographer ?

At Nu Image, bookings are received on a first come best dressed basis, and so we recommend that a booking be made as soon as your wedding date is set. This of course could vary from 1-2 months to 1-2 years prior to your wedding. Booking early will avoid disappointment and don't forget that your package price is fixed when your deposit is paid.

Timing on your wedding day

Allow extra time for travel between locations as most wedding cars will travel at around 40kph and simply getting in and out of cars usually takes longer as well. Signing the register and other documents, on average, takes 7-8 minutes in addition to the actual ceremony itself. Also allow 10-15 minutes for hugs, kisses & confetti etc. as you leave the ceremony.

In most cases we need at least one to two hours, plus traveling time for photographs at your pre-arranged locations between the ceremony and your arrival at the reception venue. We try to arrive at your reception venue around half an hour before the official start time (during pre-dinner drinks) so as to get shots in the reception room before the guests enter.

Family Photographs

Please make sure your immediate family on all sides are aware of the location where their photographs will be taken. We require the Parents, Grand-Parents, Brothers and Sisters and their Spouses & Children (if applicable), for both the Bride & Groom. Where possible we will complete all family photographs first, so they are free to move on to the reception and entertain your guests until the bridal party arrives, at the completion of the photo session.

Daylight Formula

In South Australia the shortest day of the year is June 21st, and useable daylight expires at 5pm. Useable daylight increases by 30 minutes per month either way, E.G. July 21st it is light until 5.30pm, August 21st = 6pm, or going the other way May 21st = 5.30pm, April 21st = 6pm etc. etc. During daylight savings months, running out of daylight is rarely a problem.

Glasses - Photochromatic or Tinted, and Contact Lenses

Rarely do glasses cause any problem indoors, however outdoors they may darken, resulting in poor detail in the subjects eyes (the eyes are the window to the soul). If possible, we recommend clear, untinted or non-photochromatic glasses should be worn. Contact Lenses tend to dry the eyes out and cause the wearer to blink more often, so it helps us if we know who is wearing contacts to ensure the best results.

Photographic Styles

From casual & photojournalistic to formal, contemporary or classical, we will tailor your wedding photography to suit your wishes, and as such we encourage you to show us examples of images you may have collected from magazines etc, and to point out images in our display albums of the type of photographs which appeal to you.

MORE INFO

Each year around 100 couples choose **nu image** to Professionally Photograph their special day in creative, contemporary images that will enable them to re-live their Wedding day forever.

**Booking Deposit
&
Pre-Paid Pricing**

A \$450 deposit is all that is required to confirm your booking, regardless of the coverage you choose. After payment of the initial deposit, your package price is fixed and the remaining balance can be paid in installments to suit your budget provided full payment is received within 4 weeks prior to your wedding.
Tentative bookings will be held for 7 days only.

***COVERAGE
TIMES
& Traveling**

Coverage's include photography & travel time between locations, commencing from arrival at location one, and up to and including pre-reception photographs, prior to the official start (sit down time) of your reception unless otherwise stated. Our photographers will help calculate how much time you need and which coverage will provide the best value for money.

Metro & Hills travel included in all coverage's - special rates apply for country clients and longer distances.

**PREVIEWS
(proofs)**

Individually designed Preview Books containing all images captured are included with all packages except "Celebrity". Other proofing options are also available (at additional cost) on request - please ask for details.

Also available - Digital Proofs on disc and DVD Slideshows

**COPYRIGHT
LICENSES**

Private Use Copyright Licenses are included with all packages. (some conditions apply)

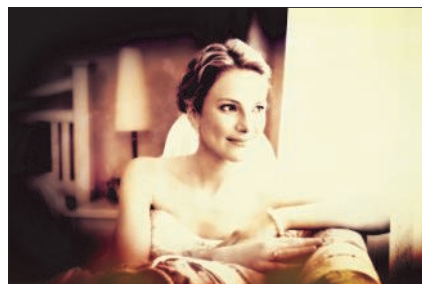

These include High Resolution Digital Files on disc allowing you to "Print Your Own" re-prints or enlargements.

**PRODUCT
RANGE**

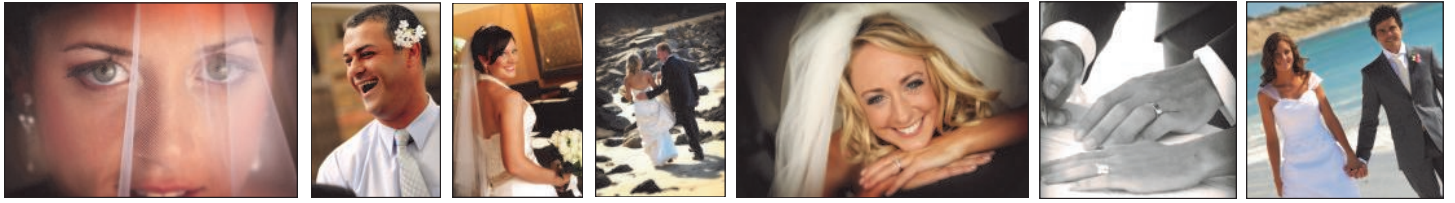

A huge range of Albums, Frames and Folios are available in a variety of sizes and combinations, so that there is something for everyone - Parents, Grandparents, Bridal Party etc.

**DIGITAL IMAGE
STYLING**

Digital Composite images make a stunning feature of any album or wall print and are available on request and Digital Retouching and Special Effects are included with your Album Design.
